# THE LEGACY

est. 1985

## **DEERHUNTER: A LEGACY IN THE MAKING**

Since 1985, DEERHUNTER has been at the forefront of hunting apparel, driven by a passion for innovation, performance, and tradition. Every step in our journey reflects a deep commitment to hunters and the natural world. From crafting iconic gear to embracing modern advancements, our legacy is built on meeting the needs of those who seek adventure in the wild. Explore the milestones that define DEERHUNTER's story - a heritage of excellence shaped by hunters, for hunters.

## 1985

### DEERHUNTER

was established as a result of the Engel family's passion for hunting.

## 1992

Deer-Tex® Membrane is introduced to the collection.

## 1996

Visibility is incorporated into the design philosophy.

## 2009

DEERHUNTER is appointed as purveyor to the Danish court.

## 2016

The PREDATOR series is introduced, paving the way for the series we today know as EXCAPE.

## 2024

Supporting and protecting wildlife.

## 1995

The collection increases, catering to different climates and vegetation.

## 1998

REALTREE becomes a partner and DEERHUNTER introduces their first camouflage set "ALABAMA" in REALTREE'S X-TRA BROWN camouflage.

## 2015

Celebrating DEERHUNTER's 30th year legacy with the launch of the beloved MUFLON series.

## 2018

DEERHUNTER relaunches their collection of highly functional clothing for female hunters.

## 2025

The legacy continues.

# REALTREE

## A PARTNERSHIP ROOTED IN FAMILY AND INNOVATION

In 1998, two visionary, family-owned pioneers - Deerhunter and REALTREE - joined forces to revolutionize hunting. Their shared mission was bold bringing hunters closer to nature than ever before. Grounded in family values and a relentless passion for the outdoors, this partnership has grown into a legacy of innovation that continues to set the standard for hunting gear worldwide.

By fusing Deerhunter's unparalleled expertise in crafting durable, all-weather hunting apparel with REALTREE's groundbreaking mastery of camouflage design, this collaboration has changed the game. Together, we've created gear that not only endures the harshest conditions but also adapts seamlessly to every terrain - empowering hunters to honor traditions while embracing modern performance.

### INNOVATION MEETS TRADITION

It all started with the iconic ALABAMA set, featuring the groundbreaking debut of REALTREE X-TRA BROWN camouflage. From there, we never stopped innovating. Our collection now includes advanced designs like the camouflage EXCAPE® pattern and the highly visible EDGE® Orange camouflage, delivering unmatched versatility to hunters everywhere.

The EXCAPE® camouflage pattern merges warm greys and tans from nature to disrupt the human silhouette. This innovative design, with its carefully crafted contrasting open areas, allows hunters to vanish into their surroundings - whether deep in the forest or out in the open. It's a game-changer, offering hunters unparalleled invisibility that mimics the natural environment.

Meanwhile, EDGE® Orange camouflage strikes the perfect balance between safety and concealment. The bold safety orange ensures visibility to other hunters in the field, while the natural camouflage elements keep you hidden from game. It's protection and performance, seamlessly combined.

### A LEGACY OF EVOLUTION

Deerhunter and REALTREE continue to push boundaries, blending timeless hunting traditions with state-of-the-art innovation. For us, it's about more than just gear - it's about inspiring hunters to connect deeply with nature, pursue their passion with confidence, and perform at their best.

This partnership is a testament to the power of family, ingenuity, and a shared passion for the hunt. Together, we're not just outfitting hunters with superior gear - we're transforming the way they experience the wild.

# MEMBRANES

## WEATHER PROTECTION

At DEERHUNTER, we utilize three distinct membranes, each carefully selected to enhance your hunting gear. Every product we create is thoughtfully designed, with the most suitable membrane chosen to deliver optimal performance, ensuring your gear meets the unique demands of your hunting adventures.

## DEER-TEX®

Performance Shell

### DEER-TEX PERFORMANCE SHELL MEMBRANE

The Deer-Tex Performance Shell membrane is a lightweight membrane laminated to the shell fabric of the garment. It is waterproof up to a Water Pressure of 10.000mm and has a Moisture Vapor Permeability up to 10.000g/m<sup>2</sup>/24h. The seams of the garment are usually taped to ensure 100% waterproofing. This membrane is often used in Deerhunter's more technical products.

The benefits of choosing the Deer-Tex Performance Shell membrane include garments that are 100% waterproof, windproof, and breathable, without restricting movement. The membrane itself is stretchable, resulting in high comfort and flexibility for the wearer. After a long day of hunting, garments with this membrane can be washed at 30°C — just remember not to use fabric softener, as it can reduce the breathability of the membrane.

#### Key takeaways:

- Laminated onto the shell fabric
- Water- and windproof
- Breathable
- Stretchable
- High comfort
- Washable at 30°C, without softener

### STORMLINER

The Deerhunter Stormliner Membrane is typically laminated to the shell fabric or lining of the garment, though without taped seams. This design allows the garment to maintain high breathability, as vapor can escape more easily. Clothing equipped with the Deerhunter Stormliner membrane can be washed at 30°C, without using fabric softener.

Although this membrane does not provide full waterproofing, it still offers protection from wind and light rain. It is ideal for hunting clothing worn during times of the year when the weather is more stable. Many of our lightweight styles feature this membrane, as it's perfect when your body temperature rises during a stalk.

#### Key takeaways:

- Highly breathable
- No taped seams
- Windproof
- Washable at 30°C, without softener

## DEER-TEX®

Membrane

### DEER-TEX MEMBRANE

The Deer-Tex Membrane is a loose-fitting membrane, perfect for garments designed to be more silent. It is placed between the shell fabric and the inner fabric of the garment. Like the Performance Shell Membrane, it is waterproof up to a Water Pressure 10.000mm and has a Moisture Vapor Permeability up to 10.000g/m<sup>2</sup>/24h. The seams are taped to ensure 100% waterproofing. Garments featuring this membrane can be washed at 30°C, if no fabric softener is used.

The Deer-Tex Membrane offers many benefits for hunters, including high wind- and waterproofing, and breathability. Because the membrane lies loosely, it provides added stealth by reducing noise, making it ideal for hunters who value protection from the elements while maintaining a low profile.

#### Key takeaways:

- Lies loosely between the shell fabric and inner layer
- Water- and windproof
- Breathable
- Washable at 30°C, without softener

#### WATER REPELLENT

### WATER REPELLENCY

Why would the fabric of Deerhunter clothing need a water repellent treatment, if it has a membrane? While the membrane protects you from getting wet, a water repellent treatment keeps the shell fabric from getting saturated, which would add weight to the outfit.

A water repellent treatment is a chemical treatment, which is applied to the surface area of the shell fabric. Even though the use of chemicals in garments may cause some concern, it is important to distinguish between chemicals, and harmful chemicals. It is not possible to create functional fabrics without the use of chemicals. However, we ensure that the chemicals used in Deerhunter clothing are not harmful in any way.

Each Deerhunter product with a water repellent treatment is fluorocarbon (PFAS) free. We also make use of a treatment called BIONIC-FINISH® ECO. This treatment is created by RUDOLF and is a patented fluorine-free technology. The treatment that is inspired by nature, is based on dendrimers that branch out on the textiles surface area and create a highly wash-resistant and fluorine-free microstructure. The result is an effective water repellent treatment of the fabric that protects the shell fabric from rain and water-based stains.

Check for the OEKO-TEX STANDARD 100 logo on our products and be at ease knowing they have been certified as safe.

## CHART

Our membranes are tested according to ISO standards.

Find our recommendations for membranes matched with condition and activity below.

WP WATER PRESSURE	WP in mm	Resistance	Weather condition
	0-2000	No resistance to some resistance to moisture	Light rain, dry snow, no pressure
	3000-5000	Rainproof and waterproof except under high pressure	Moderate rain, average snow, light pressure
	8000-10000	Rainproof and waterproof under high pressure	Heavy rain, wet snow, high pressure

  

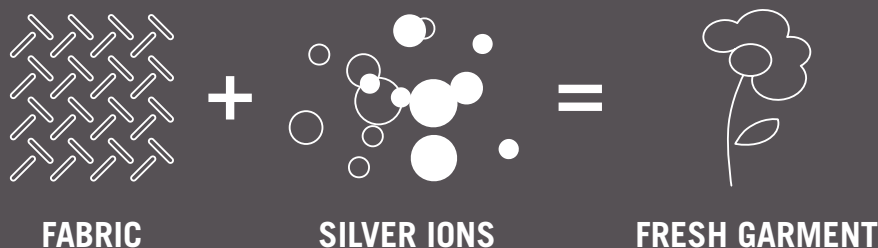

MVP MOISTURE VAPOUR PERMEABILITY	Physical Activity	MVP per hour - g/m <sup>2</sup> /1h	MVP per day - g/m <sup>2</sup> /24h
	Sedentary	13	300
	Light activity/walk	125	3000
	Light exercise 5km in 45 min/Bike 20 km/h	354	8500

\*Based on an average male with average perspiration doing different activities in temperature between 10-15 degrees

# SILVADUR™

## TECHNOLOGY

# SMART FABRIC PROTECTION

## ACTIVATES WHEN YOU NEED IT

SILVADUR™ odour protection technology is an intelligent antimicrobial that effectively stop odours before they start keeping fabrics smelling good and feeling fresh for longer. Its intelligent technology adheres silver ions to fabric surfaces and activates them at the first sign of any bacteria, for effective odour protection.

### SILVADUR™ TECHNOLOGY

SILVADUR™ odour protection technology is an intelligent antimicrobial that effectively stop odours before they start keeping fabrics smelling good and feeling fresh for longer. Its intelligent technology adheres silver ions to fabric surfaces and activates them at the first sign of any bacteria, for effective odour protection. A durable antimicrobial, it protects garments from odour-causing bacteria wash after wash and is certified by the Oeko-Tex® Association, giving the wearer essential peace of mind.

### INTELLIGENT TECHNOLOGY FOR EFFECTIVE PROTECTION SILVADUR™

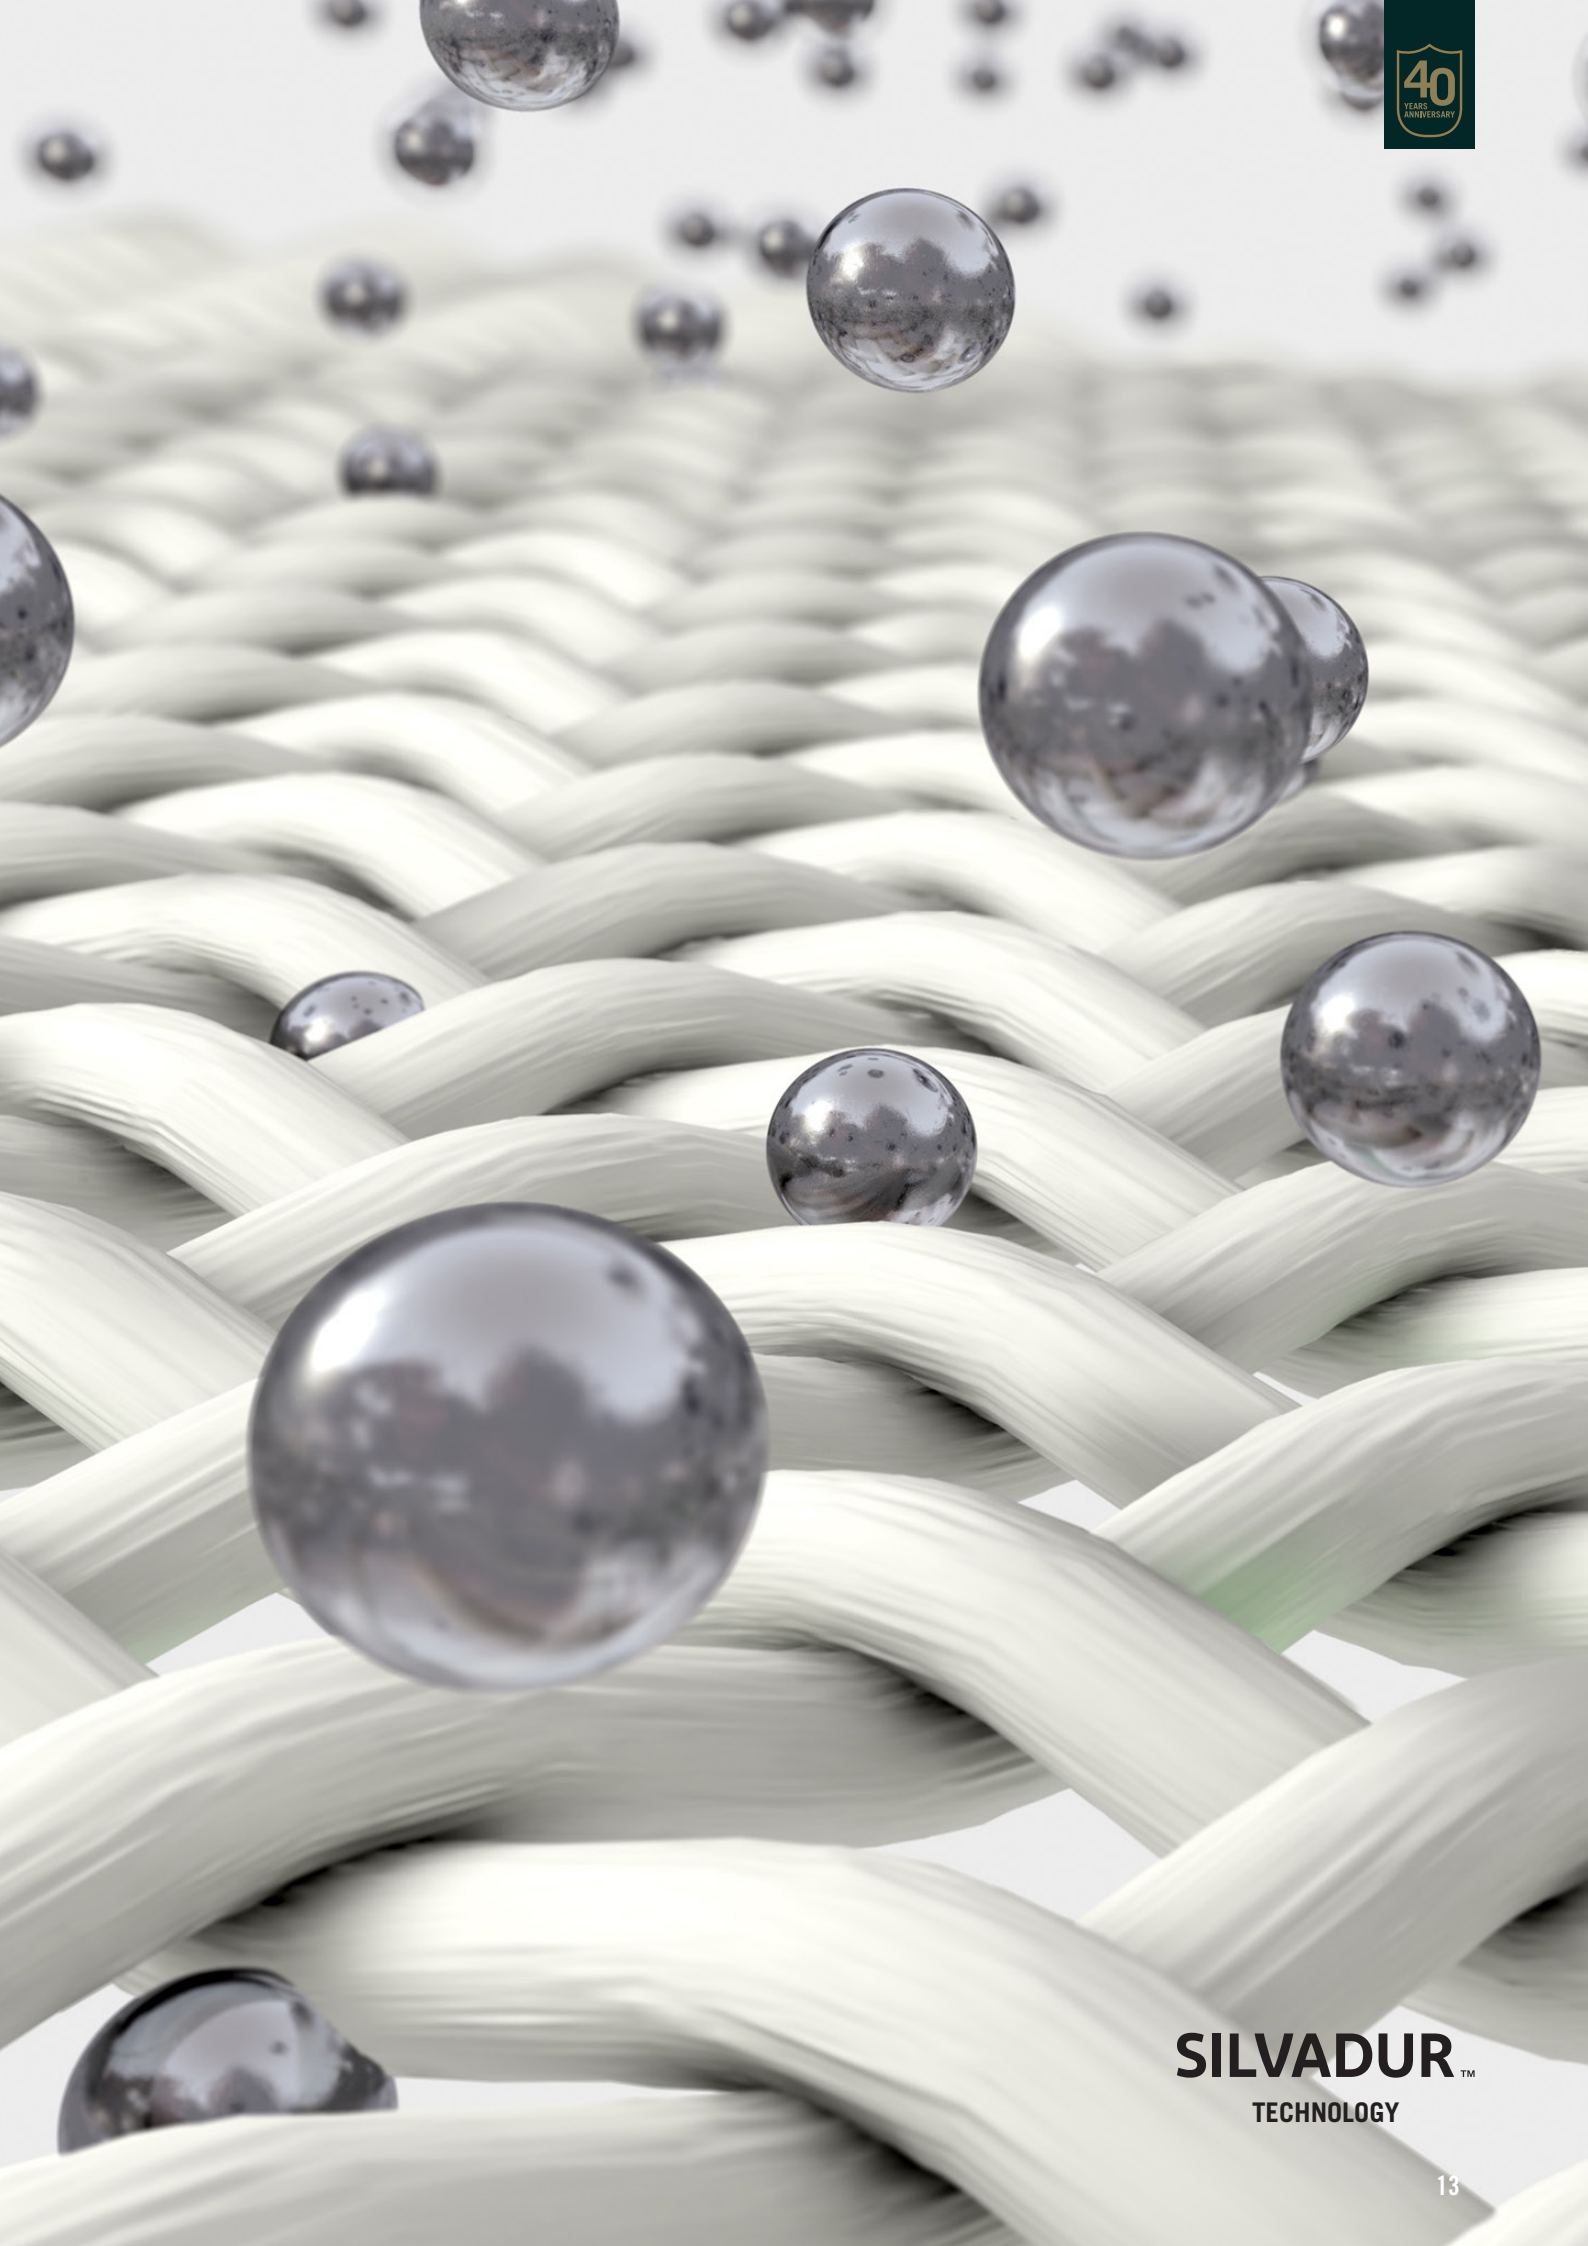

unites silver ion's elemental powers with a patented delivery system to create an extremely effective, highly durable antimicrobial for a wide variety of textile and apparel applications. Its patented polymer technology adheres silver ions to fabric surfaces and activates them in the presence of odour-causing bacteria. This bio-responsive performance feature ensures that SILVADUR™ stays on the fabric surface and stops odours before they start.

### DURABLE PROTECTION, WASH AFTER WASH SILVADUR™

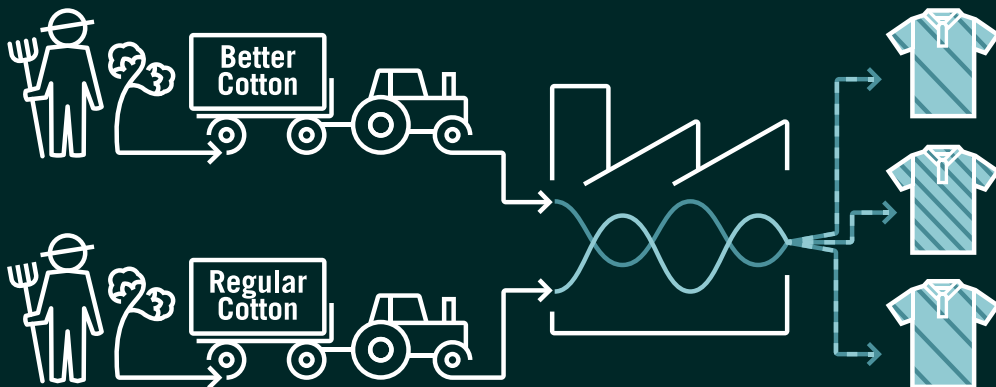

is a highly durable antimicrobial and offers effective odour-protection for a wide variety of apparel and textile for more than 50 washes. It is effective on both natural and synthetic fibers and is compatible with a broad range of common textile additives, detergents and other finishing treatments.

### SAFE & CERTIFIED, FOR ESSENTIAL PEACE OF MIND SILVADUR™

is recognised and listed as an Active Chemical Product (with biological activity) by the International Oeko-Tex® Association as a formulation that has been assessed to be harmless to human health. It is certified by several other international standards and is registered to meet REACH requirements in the European Union.

**SILVADUR™**  
TECHNOLOGY

**MASS BALANCE**

Better Cotton is sourced using a chain of custody model called: "Mass Balance", which is illustrated here.

# BETTER COTTON

## INVESTING IN BETTER COTTON SOURCING

Deerhunter is a member of Better Cotton. Through this membership, we strive to use Better Cotton for the products in our collection, where it is possible. Most of our current and future use of cotton, is sourced as Better Cotton.

### A BETTER COTTON FARMING ENVIRONMENT

Better Cotton is sourced using a chain of custody model called: "Mass Balance", which is illustrated below. The mission of Better Cotton is to help cotton communities survive and thrive, while protecting and restoring the environment.

When you buy our products with cotton, you support our investment in Better Cotton's mission. Please be aware that not all our cotton is sourced from Better Cotton. Better Cotton is sourced through a mass balance model, therefore the products may not contain Better Cotton.

We support Better Cotton's mission to develop better practices in cotton farming. By being a member of Better Cotton, Deerhunter supports the dissemination of Better Cotton's initiatives to improve social and environmental aspects of cotton farming. The initiatives address crop protection, water, soil health, biodiversity, fiber quality, decent work, and management systems. Deerhunter's work based on the conviction to support the local communities from which the products are bought.

# HIGH VISIBILITY

*CE marked styles from DEERHUNTER*

## YOUR SAFETY

When visibility on the hunt is paramount, we've got you covered. Several of our orange visibility styles have received the well-known CE mark, meaning they have been registered and certified as functional PPE (CAT II) according to the standards and legislation for visibility

equipment used in day-time hunting (MEDIUM RISK situations). With CE-marked styles from DEERHUNTER, you can enjoy your hunt with peace of mind, knowing that you'll remain highly visible to your peers.

# MUFLON PRO

## BUILT ON TRADITION. MADE FOR TODAY

For decades, DEERHUNTER has crafted hunting gear that stands the test of time. The MUFLON PRO collection builds on this legacy, blending iconic design with modern performance for hunters who demand the best.

Loaded with advanced features like enhanced ventilation and reinforced high-wear areas, MUFLON PRO keeps you ready for any challenge, whether navigating dense forests or surveying vast plains. This gear is purpose-built to perform, keeping you focused and prepared.

Adaptable to every hunting style and season, the collection includes MUFLON PRO Light for active pursuits, MUFLON PRO for year-round reliability, and MUFLON PRO Winter for protection in cold climates. Each piece combines comfort, adaptability, and durability, ensuring you are ready for any adventure.

MUFLON PRO continues DEERHUNTER's legacy, where tradition meets innovation.

# CLIMATE WITH 37.5® TECHNOLOGY

## FOCUS AND COMFORT

When it comes to hunting, comfort is not just a luxury, it is a necessity. Long hours in unpredictable weather demand gear that works as hard as you do. This is where DEERHUNTER CLIMATE with 37.5® Technology comes into play. Powered by 37.5® Technology, it keeps you comfortable, dry, and focused regardless of the conditions.

Forget the hassle of constant layering. DEERHUNTER CLIMATE with 37.5® Technology seamlessly adapts to shifting temperatures, managing early morning chills and midday warmth. There are no interruptions or distractions, allowing you to concentrate fully on the hunt.

TECHNOLOGY

The core feature of this advanced outfit is 37.5® Technology, designed to maintain your body's ideal temperature of 37.5°C. By efficiently wicking away heat and moisture, it creates a personal microclimate that keeps you dry, comfortable, and prepared for action in any environment.

This innovative technology uses the power of volcanic minerals to deliver unmatched performance. The active particles are permanently embedded in the fabric, providing reliable temperature regulation and odor control season after season.

With DEERHUNTER CLIMATE with 37.5® Technology, you are prepared for whatever challenges nature throws your way. Experience superior comfort, precision, and confidence in one advanced outfit. Equip yourself today and discover how DEERHUNTER CLIMATE with 37.5® Technology is redefining the hunting experience.

EAGLE WINTER JACKET & EAGLE CAP

# EXCAPE

## ELEVATE YOUR LAYERING SYSTEM TO NEW HEIGHTS

When stealth and agility are essential, the EXCAPE series by DEERHUNTER is your ultimate hunting companion. Light yet resilient, EXCAPE allows you to move effortlessly through rugged terrain, keeping you undetected and focused on the trail. Designed for hunters who demand peak performance, this adaptable layering system offers unmatched flexibility and control across every season.

SCAN AND  
EXPLORE THE SERIES

The Deerhunter Excape Softshell Jacket is built for active hunts, combining water-repellent protection, unmatched mobility, underarm ventilation, and secure storage—designed for unmatched stealth during stalks.

EXCAPE provides limitless layering possibilities, enabling you to tailor your system to suit active hunting year-round. Lightweight and functional, it is the ideal choice for those who push the boundaries of their hunt.

Choose the subtle, natural tones of Art Green for a low-profile approach, or opt for the advanced REALTREE EXCAPE™ camouflage, engineered to blend seamlessly into diverse terrains. Both options deliver a tactical edge tailored to your environment.

# CHAMOIS

## LIGHTWEIGHT PERFORMANCE FOR WARM-WEATHER HUNTS

When the hunt demands speed and adaptability, the CHAMOIS series rises to the challenge. Designed for ultra-lightweight performance and exceptional flexibility, this collection moves with you, providing the freedom needed for active hunting in even the toughest terrains.

Built with breathable, fast-drying fabrics, CHAMOIS is your go-to gear for hunts in warmer climates. It keeps you cool and dry, no matter how intense the pursuit becomes, allowing you to stay focused on the thrill of the chase.

Finished with bold orange accents, this series blends modern style with rugged functionality. Lightweight, breathable, and crafted to perform, the CHAMOIS series is the ultimate choice for hunters who demand readiness, resilience, and purpose.

## DEFY THE COLD AND STAY ON THE HUNT

When temperatures plummet, the HEAT series becomes your ultimate ally, delivering the warmth you need to keep moving. Each piece in this collection features an integrated heating system, activated and controlled with a single press, providing instant warmth exactly when you need it. Whether you're layering up with a cozy baselayer or relying on an insulating outer layer, the HEAT series keeps the chill at bay, allowing you to stay focused on the hunt no matter how cold it gets.

**INSTRUCTIONS****How to use your new HEAT product**

Attach a powerbank to the cable inside of the product by using the USB port, then turn it on. After it has been activated, place the powerbank in the designated pocket of your HEAT product.

To activate the heat function press and hold the power button until the light turns on.

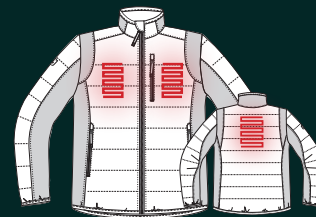

Choose one of following temperatures:

Red light - high temperature.

Green light – medium temperature.

Blue light – low temperature.

To turn off the heat function press and hold the power button for 3 seconds or until the light turns off.

**Wash and care**

1. Always remove powerbanks when washing your heat products. Make sure to put on the safety stopper on the USB cable before washing to protect it.
2. Use a gentle program of maximum 30°C without softener.
3. No dry cleaning.
4. No ironing.

**Furthermore, we recommend**

Please disconnect and remove the powerbank before long time storage of your HEAT product.

All the components of the HEAT system are securely tested as well as they are CE and RoHS approved. Your safety is our concern!

**Tested up to 10.000 mAh.**

# GAME

## ENGINEERED FOR HUNTERS WHO LIVE FOR THE CHASE

The GAME series stands as the ultimate in hunting apparel, where every feature and stitch is designed to bring you closer to the wild. Imagine tracking silently through thick underbrush or lying in wait in the heart of a blind – GAME gives you the edge, adapting to your every move. Engineered with precision, each style is crafted from top-tier, silent materials that minimize noise, allowing you to get close without alerting your prey.

SCAN AND  
EXPLORE THE SERIES

Stay safe and comfortable during the winter with our new H. Game Jacket.

The jacket is CE marked and PPE CAT II certified (EN 17353:2020) for high visibility.

Packed with cutting-edge innovations, GAME offers a wide range of details, ranging from integrated heating for biting cold, rubber protection on exposed areas, and a detachable orange waistcoat that grants you visibility when needed. For hunters who demand the best, GAME keeps you sharp, prepared, and one step ahead.

# CANOPY

## LIGHTWEIGHT COVERAGE FOR HIGH TEMPERATURES

When the heat is on, the CANOPY series by DEERHUNTER ensures you stay cool and comfortable. Built with full-stretch ripstop fabric, CANOPY delivers exceptional flexibility and comfort, allowing you to move freely even in high temperatures. Its lightweight, highly ventilated design keeps you agile throughout your outdoor pursuits, letting you focus on the adventure without being weighed down.

SCAN AND  
EXPLORE THE SERIES

The CANOPY shirt combines lightweight, stretch ripstop material with a mesh ventilation panel for breathability and comfort. Practical features, like a built-in optics cleaning cloth, make it perfect for summer adventures.

# MATOBO

## BUILT FOR COMFORT IN EVERY STEP

The MATOBO series is designed to keep you comfortable and ready, whether you're stalking through the plains or navigating open landscapes. Featuring shirts, trousers, and shorts, MATOBO strikes the perfect balance between breathability and functionality, helping you stay focused and steady. Made for those who move with purpose, MATOBO ensures you stay level-headed and prepared, no matter what the day brings.

# BASELAYER

## THE SECRET TO STAYING DRY AND WARM

The success of your hunt begins with the layer closest to your skin. Why let discomfort hold you back? With DEERHUNTER's baselayers, you stay dry, warm, and ready to face any challenge nature throws your way.

Designed to wick moisture away from your skin, our baselayers regulate your body temperature, keeping you comfortable and focused from dawn until dusk.

Whether you prefer the natural warmth of wool or the practicality of synthetic materials, our baselayer range has you covered. Choose the foundation that suits your needs and make every hunting adventure your best yet.

# GEAR MADE TO MOVE WITH YOU

## DEERHUNTER WOMEN'S COLLECTION

The DEERHUNTER Women's collection is crafted for those who feel at home in nature. Combining style, functionality, and a perfect fit, this collection is tailored to meet the needs of women who embrace the outdoors, whether for hunting, hiking, or exploring the wilderness.

The Lady MUFLON PRO Jacket combines a waterproof DEER-TEX® Membrane, recycled 3M™ Thinsulate padding, and thoughtful details like storm cuffs with watch access to enhance every hunting experience.

SCAN AND  
EXPLORE THE COLLECTION

Designed with precision, this range offers versatile apparel that moves with you, ensuring comfort and confidence in every environment. From durable jackets and trousers to elegant knits and practical base layers, every piece is thoughtfully created to deliver both performance and style.

We know nature doesn't compromise, and neither should you. That's why the DEERHUNTER Women's collection features innovative materials, functional details, flattering cuts, and a touch of timeless elegance, making every outing as enjoyable as it is successful.

# HEAT

## INSTRUCTIONS

### How to use your new HEAT product

Attach a powerbank to the cable inside of the product by using the USB port, then turn it on. After it has been activated, place the powerbank in the designated pocket of your HEAT product.

To activate the heat function press and hold the power button until the light turns on.

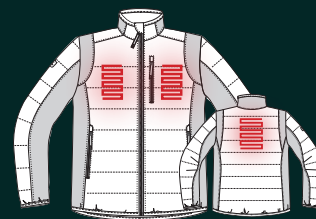

Choose one of following temperatures:

Red light - high temperature.

Green light – medium temperature.

Blue light – low temperature.

To turn off the heat function press and hold the power button for 3 seconds or until the light turns off.

### Wash and care

1. Always remove powerbanks when washing your heat products. Make sure to put on the safety stopper on the USB cable before washing to protect it.
2. Use a gentle program of maximum 30°C without softener.
3. No dry cleaning.
4. No ironing.

### Furthermore, we recommend

Please disconnect and remove the powerbank before long time storage of your HEAT product.

All the components of the HEAT system are securely tested as well as they are CE and RoHS approved. Your safety is our concern!

Tested up to 10.000 mAh.

# ACCESSORIES

## THE SMALL ESSENTIALS THAT MAKE A BIG IMPACT

When you're out hunting, hiking, or exploring the great outdoors, the right accessories can mean the difference between comfort and compromise. These unsung heroes protect the parts of you most exposed to the elements – your feet, hands, neck, and head.

For any type of hunt, our wide range of accessories delivers where it matters most. From cozy hats and versatile gloves to durable socks built for any adventure, every piece is designed to keep you warm, dry, and ready for action.

In the wild, it's the little things that make the biggest difference. Gear up with accessories that work as hard as you do. Every detail matters. Every piece counts. And with DEERHUNTER, every adventure is yours to conquer.

*Please note that our accessories are unisex.*

## VARIOUS

### QUICK DRY

Products treated with quick dry are breathable, and dry faster than other garments. Body moisture is absorbed, and wicked away from the skin so that it evaporates. Consequently, it's easier for you to maintain a stable body temperature and stay dry when hunting.

### LIGHTWEIGHT

Lightweight clothing from Deerhunter ensures a comfortable hunting experience and provides extra freedom of movement without adding extra weight.

### REINFORCEMENT

If you're stalking your way to your dream buck, or walking across hard terrain, your hunting apparel will be subjected to extra wear and tear. Here, extra reinforcement and durable materials are required.

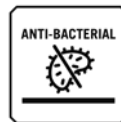

### SILENT

Noisy hunting apparel can quickly ruin a good stalk or hunting expedition. Our specially selected silent fabric has been chosen to minimize noise and the design have been optimized to reduce friction around the arm and leg area. Get closer to the animals with Deerhunter Silent.

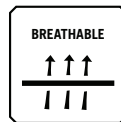

### WOOL

Wool is warmer than synthetic fabrics – whether it's wet or dry. Wool wicks moisture much more effectively than cotton, but not quite as well as synthetic fabrics. Wool also takes considerably longer to dry than synthetics.

### ANTI-BACTERIAL

Anti-bacterial fabric consists of fibres which have been treated to eliminate bacteria growth, reducing the risk of spreading infection whilst also reducing odour, by preventing bacteria attaching to sweat or moisture when the fabric is worn.

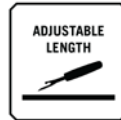

### BREATHABLE

No matter in which weather situation you find yourself, choosing a breathable Deerhunter® product, allows you to maintain your comfort while being active and subsequently enjoy your experience more.

### THORNPROOF

When nature challenges us in tough terrain, it demands even more of our hunting apparel. Here, Deerhunter has developed its Thornproof products, which are made from extra strong fabrics with the sole purpose of being able to withstand scrub and thorns.

### ADJUSTABLE LENGTH

The trousers have an extra wide tuck designed to extend the length of the trousers, if needed. A single seam is undone and gives the trousers extra leg length – and remain properly seamed.

### LEATHER

Leather is a timeless material valued for its durability, flexibility, and natural elegance. Renowned for improving with age, it offers unmatched quality and reliability, making it a staple for those who appreciate craftsmanship and longevity.

### CE MARKING

CE marking signifies that a product meets the European Union's safety, health, and environmental standards. It ensures compliance with legal requirements for sale within the European Economic Area (EEA).

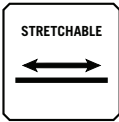

### EN 17353:2020

#### EN ISO 13688:2013 + EN ISO 13688:2013/A1:2021

This international standard specifies the requirements for enhanced visibility equipment which are capable of visually signalling the users presence.

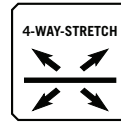

The enhanced visibility equipment is intended to provide conspicuity of the wearer in MEDIUM RISK situations under any daylight conditions and/or under illumination by vehicles headlights or searchlights in the dark.

The clothing is NOT applicable to HIGH-RISK situations, where the requirement for personal protective clothing must be certified according to EN ISO 20471.

**TWO-WAY STRETCH**

If you require extra freedom of movement and a good fit, choose one of Deerhunter's products with stretch. Using materials with two-way stretch makes the hunting apparel stretchable, which enhances your freedom of movement.

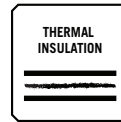

**FOUR-WAY STRETCH**

When choosing hunting apparel, and you need maximum flexibility, freedom of movement and a good fit, you should choose Deerhunter's products with four-way stretch. Hunting apparel with four-way stretch is elastic both lengthways and widthways, enabling you to move around freely without feeling constricted by your clothing.

**INSULATION**

If you want to hunt in very cold temperatures, you will benefit greatly from choosing hunting apparel with insulation. Padding or insulation is designed to keep you warm. It is important that you are able to maintain a stable body temperature throughout the day so that you don't freeze.

**THERMAL INSULATION**

The weave of the fabric is tailored to maintain a stable body temperature, through thermal insulation that entraps and conserves the body heat within the material. Additionally, it transports the sweat away from the skin, ensuring a comfortable and dry experience.

**HEAT**

Integrated heating system powered by a USB-connected powerbank (not included). Adjustable settings - high, medium, and low - offer customizable warmth, ensuring comfort in cold conditions.

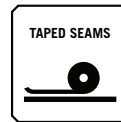

**WATER REPELLENT**

Products impregnated with water repellent treatment are water- and dirt-resistant. Stains are easy to remove and the product gets a very smooth surface.

**WINDPROOF**

If you choose one of Deerhunter's products which have a membrane, it will automatically be windproof. Windproofing is the garment's ability to keep the wind out. If you sit for a long time in a strong breeze, you will quickly appreciate the fact that the garment is windproof.

**TAPED SEAMS**

Deerhunter's technical hunting products feature taped seams. Taped seams are often used in connection with different types of membrane to ensure you avoid a wet and sodden hunting experience. Products tagged with taped seams are 100% waterproof.

**100% WATERPROOF**

Wet and sodden hunting apparel can quickly mar a good hunting expedition. Deerhunter therefore always recommends waterproof products for hunting in rainy weather. A special combination of materials and processes enables us to develop products which are 100% waterproof.

**MEMBRANES**

At DEERHUNTER, we use three specialized membranes to enhance your hunting gear. The Deer-Tex® Membrane offers versatile, loose-fitting protection, while the Deer-Tex® Performance Shell is lightweight and laminated for seamless integration. The Stormliner® adds extra protection, typically laminated without taped seams. Each membrane is chosen to optimize performance for your adventures.

**WATERPROOF & BREATHABILITY**

Water penetration resistance is measured in "millimetre water column pressure". The water column pressure is measured by placing a liquid column gauge over the material so that material with water penetration resistance for example 10.000 mm can keep water out from a ten metre (10.000 mm) gauge.

MVP value indicates breathability of a membrane. MVP value is an expression of the quantity of water vapour that can escape through one square meter of a membrane within 24 hours. A breathable product rated at for example 10.000 can therefore "breathe" 10.000 g (10 litres) water vapour per square metre in 24 hours.

**REALTREE**

REALTREE's innovative camouflage patterns redefine concealment for hunters. The EXCAPE® pattern blends natural greys and tans to disrupt the human silhouette, ensuring seamless integration into any terrain. With contrasting open areas, it provides unmatched concealment, whether in dense forests or open fields.

For those prioritizing safety, EDGE® Orange offers bold visibility to fellow hunters while maintaining concealment from game. Combining natural elements with a vibrant safety orange, it delivers the perfect harmony of protection and performance. Realtree's designs empower hunters with cutting-edge camouflage that adapts to the demands of the wild.

# SIZE GUIDE

## THIS IS HOW TO MEASURE YOURSELF CORRECTLY

Get someone to help you so you can measure more exactly. Stand in a relaxed position. Place the measuring tape directly on your body. The tape should be reasonably tight, but not too tight. If you allow enough space to slide a finger under the tape, you will get the correct measurements

# DEERHUNTER B2B & OUTLET

## MAKE SURE YOU NEVER RUN LOW

With our B2B platform, you can easily place an order on any of our products. If a customer is searching for a Deerhunter product, you do not have in your store, you do not have to miss out on a sale - use our drop-shipping feature to satisfy the customer.

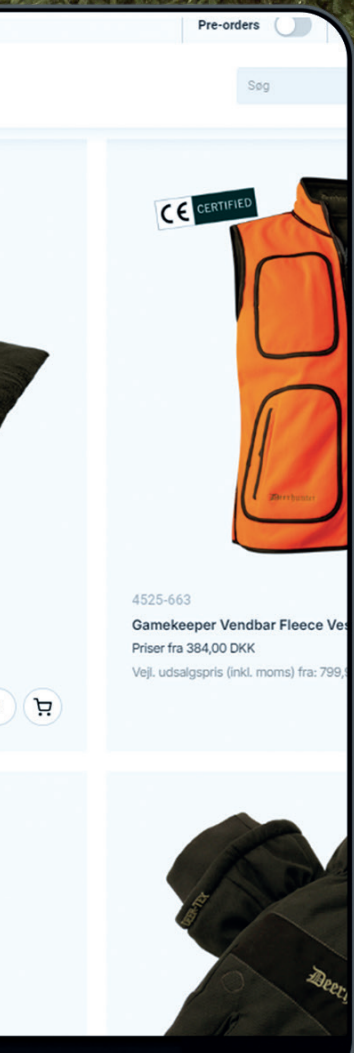

Stay updated on our outlet section, where you can find the latest newly added products.

# IN DOUBT OF HOW TO USE THE B2B?

Contact your Deerhunter sales agent or our customer service team, and we will onboard you.

# DEERHUNTER'S NEW INVENTORY

## ELEVATE YOUR DISPLAY

Our brand-new inventory system is now available, ready to make Deerhunter products in your store stand out like never before. Tailor your display to match your preferences and optimize sales space effortlessly.

This user-friendly, highly customizable inventory is easy to assemble. Take your pick from customizable rack systems with optional dressing room space, extendable 3-sided islands for versatile floor utilization, or 4-way racks ideal for prime A-locations in your store. Elevate your merchandising game with our innovative inventory solutions.

**Have we caught your interest?**

Contact your Deerhunter sales agent to learn more.

# CO-BRANDING

## AT DEERHUNTER, WE HELP ELEVATE YOUR PROFESSIONAL LOOK BY OFFERING LOGO ADDITIONS TO UNIFORMS.

Add logo heat transfers or embroidery to almost any piece in our line-up. Whether you require uniforms for your staff, sponsorship for the local gundog team, or any other customized solution, we have got you covered. For more details, reach out to our customer service team, who will be happy to help you with further assistance.

Message us your preferred logo size, placement, and quantity, and we will handle the rest. We will give you a preview and recommendations based on your preferences.

We suggest placing written orders for transfers or embroidery.

### Heat transfer options:

- Color Stop Transfer: Prevents bleeding, perfect for softshell gear, 40°C wash.
- Industrial Transfer: Durable for everyday work gear, withstands a 60°C wash.
- Water Transfer: Sturdy and stretchy, handles a tough 60°C wash, ideal for work gear.
